

# About the BottleBox program

Do you love BottleDrop Refillables? The BottleBox program may be for you. With the BottleBox, you receive an additional 20% back when you return your BottleDrop Refillable bottles and help make sure that those bottles get another life.

## What is it?

The BottleBox is a durable, reusable waxed cardboard crate that can hold up to 24 BottleDrop refillable bottles.

## How do I get one?

Pick one up at any BottleDrop Redemption Center [link to locations page]. Charge the \$3 deposit onto your BottleDrop account (sign up here [link to online signup] or at a BottleDrop) and you're set to start collecting refillables.

## How do I use it?

Put 24 BottleDrop Refillable bottles in your BottleBox and bring to your local BottleDrop. You'll receive credit for the bottles plus 20%. You can swap for another BottleBox or simply return and get your \$3 deposit back.

## Why should I use BottleBox?

Refillable Bottles are specially made for the BottleDrop Refillable bottle program. While we welcome you to return BottleDrop Refillables in your Green Bags, the BottleBox is better in a few ways:

1. Keeping bottles upright and sorted **helps prevent damage.**
2. Heavy refillable bottles can quickly stretch the limits of your Green Bags. Use BottleBox to help **maximize the containers in your green bags.**
3. **Get an extra 20%.** It's your reward for bringing them back in good shape!
